ESTONIAN WEATHER BULLETIN  
31 AUGUST - 16 SEPTEMBER 1949

Sovetskaya Estoniya, No 206, 1 Sep 49

On 31 August, weather in the republic continued to be calm and warm with considerable cloudiness and light local showers. Fog was noticed in Kuusi, Valga, and Purts. Night temperature was 15-17 degrees above zero everywhere.

In the next 3 days, no significant changes in the weather will occur. In all districts, warm weather with considerable and variable cloudiness will continue. Light showers are expected in some places. Fog is to be expected in most areas during the night and in the morning. The wind from the southwest is light to moderate.

Sovetskaya Estoniya, No 207, 2 Sep 49

On 1 September, calm, warm weather with varying cloudiness continued in the republic. Fog was observed throughout the republic in the morning.

In the next 2-3 days there will be no actual changes in the weather. Calm, warm weather with varying cloudiness, morning fog, and no precipitation will continue. Night temperature will be about 9-12 degrees; day temperature, 19-23 degrees.

Sovetskaya Estoniya, No 208, 3 Sep 49

On 2 September, the weather in all regions of the republic was warm and calm with considerable cloudiness. Morning fog was observed throughout the republic. Night temperature was 10-12 degrees; day temperature, 18-22 degrees.

In the next 2-3 days, calm, warm weather with considerable cloudiness and morning fog is expected to continue. Day temperature will be about 18-20 degrees; night temperature, 9-12 degrees.

Sovetskaya Estoniya, No 209, 4 Sep 49

On 3 September, weather in the republic continued to be warm and predominantly cloudy with fog and light, unstable winds. Night temperature was 10-12 degrees; day temperature, 19-20 degrees.

During the next 24 hours there will be no actual changes in the weather. In the future a slight drop in temperature is to be expected.

Sovetskaya Estoniya, No 210, 6 Sep 49

On 5 September, weather in the Estonian SSR continued to be cloudy with fog and light winds. Small, local thunder storms occurred during the day. Day temperature was 18-22 degrees; night temperature, 10-12 degrees.

During the next few days, there will be no significant changes in the weather. It will continue to be warm, cloudy with clearing, and with light winds. In some places there will be fog at night and in the morning. Day temperature will be 18-20 degrees; night temperature, 10-14 degrees.

Sovetskaya Estoniya, No 211, 7 Sep 49

On 6 September, weather in the Estonian SSR was warm with varying cloudiness and light winds. Morning fog was noticed in some places. Night temperature was 12-14 degrees; day temperature, 18-22 degrees.

In the next 3 days, warm weather with varying cloudiness without precipitation will continue. The wind is primarily light, but is growing stronger gradually. Morning fog is expected in some places. Night temperature is 9-13 degrees; day temperature, 17-21 degrees.

Sovetskaya Estoniya, No 212, 8 Sep 49

On 7 September, weather in the republic continues to be warm and dry with variable cloudiness and light winds. In the morning, fog was reported in most of the regions. Night temperature was 7-12 degrees; day temperature, 17-22 degrees.

The warm, dry weather continuing in the Baltic and Belorussian region is caused by an intensely heated, high-pressure stationary air mass.

In the next 2-3 days, warm, dry weather with variable cloudiness and morning fog is expected. The wind should be from the southwest, light to moderate, gradually increasing to fresh. Day temperature is expected to be 17-21 degrees; night temperature, 8-12 degrees.

Sovetskaya Estoniya, No 213, 9 Sep 49

On 8 September, weather in the Estonian SSR remained warm with varying cloudiness and light to moderate winds. Morning fogs were noticed in some places. Night temperature was 9-12 degrees, in Kihyumaa and Saaremaa 15-17 degrees; day temperature, 19-23 degrees.

No actual changes in the weather are expected during the next 2-3 days.

Sovetskaya Estoniya, No 214, 10 Sep 49

On 9 September, weather in the republic remained warm and dry with moderate

winds and slight cloudiness. Night temperature was 10-14 degrees; day temperature, 20-24 degrees.

In the next 2-3 days, it is expected that warm, dry weather with slight cloudiness will continue. The wind is from the southwest, moderate to fresh. Day temperature will be 19-23 degrees; night temperature, 10-14 degrees.

Sovetskaya Estoniya, No 215, 11 Sep 49

On 10 September, weather in the Estonian SSR was warm, dry, and sunny with light winds at night and moderate winds during the day. Night temperature in Valga was 5 degrees, in Tartu and Vyrn 7 degrees, in Tallin 9 degrees, in Pärnu 10 degrees, in Khaapsalu and in the Saaremaa and Kihyuma Islands 15 degrees; day temperature was 18-22 degrees.

The next 3 days will continue warm and dry, with some clouds. Winds are from the southwest, light at night and fresh during the day. Day temperature will be 18-22 degrees; night temperature, 7-12 degrees.

Sovetskaya Estoniya, No 216, 13 Sep 49

On 12 September, weather in the republic continued to be warm, dry, and slightly cloudy with light southwest winds. There was morning fog in the southern regions. Night temperature in the southern and central regions was 4-8 degrees, and along the shoreline and on the Saaremaa and Kihyuma Islands 11-14 degrees; day temperature was 19-22 degrees.

In the next few days, slightly cloudy weather with increasing cloudiness for short periods and no actual precipitation is expected. Southwest winds should be light to moderate. A general drop in temperature is also expected. Day temperature will be 16-19 degrees; night temperature, 4-8 degrees.

Sovetskaya Estoniya, No 217, 14 Sep 49

On 13 September, weather in the republic was calm and moderately warm with alternating, predominantly slight, cloudiness. Morning fog occurred in places. Night temperature was 4-8 degrees; day temperature, 18-20 degrees.

In the next 2-3 days, the republic will continue to have moderately warm, dry weather with light winds and morning fog in places. Night temperature will be 2-6 degrees; day temperature, 14-18 degrees.

Sovetskaya Estoniya, No 218, 15 Sep 49

On 14 September, weather in the republic was warm and sunny with light winds and morning fogs. Night temperature was as low as 3-7 degrees; day temperature, 18-22 degrees.

In the next 2-3 days, dry weather with slight cloudiness and light, gradually increasing west winds is expected. There may be morning fog in places. Day temperature will be 17-21 degrees; night temperature, 2-6 degrees.

Sovetskaya Estoniya, No 219, 16 Sep 49

On 15 September, weather in the republic continued to be dry and warm with slight cloudiness and light winds. Morning fogs were noticed in some places.
